

HUMASOL POSTGRADUATE

ONE YEAR. ONE TEAM. ONE BIG HUMASOL PROJECT.

2026-2027

Humasol?

Humasol is a **student-led nonprofit** that envisions a future where renewable energy, clean water and **sustainable technology** are **accessible to everyone**. Together with partners abroad, we **design and realise projects** that directly benefit communities in Asia, Africa and South America. Projects range from water purification and renewable energy to biodigesters, recycling, sustainable construction and more. The **SDGs** and **social impact** are at the **core of our work**.

Postgraduate program (56 ECTS)?

During one academic year, you work **full-time** in a team of four students on a **large, innovative Humasol project**. Alongside your main project, you take on a **board role** within Humasol (e.g. Corporate Relations, Follow-Up, Communication, ...) and may contribute to **side projects** such as a remote project or a repair project. In addition to the 44 credits for Humasol, you take 12 credits of courses related to your project, Humasol's core values and/or entrepreneurship.

Why join?

- Gain **field experience**, ideal bridge between studying and working
- Opportunity to implement a real problem-solving project and create **lasting impact**
- **Develop strong skills** in project management, teamwork, entrepreneurship, design, and soft skills
- Build a unique international **network** (academia, NGOs, companies, and global partners)

Who are we looking for?

- **Graduates** who are highly motivated by sustainability, social impact and international collaboration
- Background in **engineering or (applied) sciences**
- Willing to work 3-4 months on site in the Global South
- Enjoy teamwork, take responsibility and ready for a challenge

How to apply?

- Prepare two documents:
 - **A two-page motivation letter** (see template on the site)
 - **A detailed CV**
- Submit your application by email to:
 - recruitingleuven@humasol.be
- **Application deadline: April 3, 2026**
- Based on your application, you may be invited for an exploratory interview
 - All applicants will be informed by email by April 5
